"BIG 3" STRIKE MOVE FIZZLES; NET TIGHTENS

Carpenters Bid for "Peace Parley."

Palmer James Mullen of the Fillmore street station was thrown from a third story window of an apartment building under construction under the Landis award at 3832-3834 Lexington street early this morning by three men believed by the police to be labor rioters.

Mullen suffered a fracture of the right ankle, an injury to his spine, and possible internal injuries. He was taken to the county hospital, where it was said his condition was serious.

Palmer Mullen was walking his dog when he saw the three men enter the building and to the third floor, where all three set upon him, carried him to a window, and hurled him down the courtyard below.

A nearby resident heard the police call and called the police, who then arrived the assailants had fled.

Mullen, who is 45 years old and married, lives at 4147 Gladys avenue.

The general strike of the building trades called by Fred Mader, president of the council, and scheduled to take effect this morning, collapsed last night.

Mader declared the strike had been called because he was indicted for murder in connection with the police killing of a man, following a secret meeting of the Building Trades council when not one of the thirty unions affiliated with the council had received official notice to strike yesterday, labor leaders conceded the strike was off.

While the Chicago Federation of Labor was in meeting yesterday, at which no mention of the proposed strike was made, State's Attorney Crane, Chief of Police Fitzgibbon and Henry Barrett Chamberlin, director of the Chicago Crime commission, were in conference at the state's attorney's office in the county building.

Case Clinched, Officials Say.

They announced that further evidence had been obtained which would undoubtedly link the "big three," Timothy D. "Big Tim" Murphy, Mader and Cornelius "Con" Shea, with the recent activities of the labor terrorism.

"Strike Call" Scouted.

Mader told it at the close of a secret meeting of the council about three weeks ago. Asked by reporters who waited outside the meeting, what he thought of the strike, he said: "I've called a general strike of the building trades to go into effect May 22."

At the time conservative labor leaders stated there would be no strike, Mader can't call a strike, they declared. "The men won't go out."

At the federation meeting during the afternoon it was announced that an effort to establish peace in the building trades situation in Chicago will be made this week. Officials of the American Federation of Labor, the local federation, the state federation, the trades council, and the international trades unions will meet Saturday, for this purpose, it was stated.

Carpenters Seek Conference.

Harry Jensen, president of the Carpenters' district council, announced that he had been in communication with William Hutcheson, international president of the carpenters, and that Hutcheson is planning a meeting and conference with the contractors and builders of Chicago.

"Mother" Jones, 92 years old, aged, walking delegate of the United Mine Workers' union, punctuated the afternoon's proceedings at the federation meeting with a radical speech.

Man Killed, Wife Shot, and Friend Is Scared to Death

Lawton, Okla., May 21.—[Special.]—William Baldwin, 48, of Paw Paw, four miles from Lawton, was shot and killed this afternoon by Frank Cole, a neighbor, and Mrs. William Baldwin, 44, was fatally wounded by the same man. The tragedy was witnessed by J. C. Geddes, a neighbor, who dropped her to the fact that the bullet struck her, and she died.

The shooting was a result of a long dispute over a line fence. Cole immediately gave himself up and is in jail at Paw Paw.

When Rasher closed his store for the second time yesterday, Mary Brook perhaps the most of all. She observed him closely.

"I'm not crazy," he said, cheerfully. "It's the only way to impress upon the people of this town that the Pioneer people are pitiless, incorrigible profiteers. I may have to go through this performance two or three more times before they are thoroughly convinced."

"But the people are all with you," urged Mary.

"All?" he asked, quickly, looking directly into her eyes. She blushed furiously.

"All but the Pioneer people," she countered, smiling. "But, seriously," she added, "I think you owe it to the people who believe in you to tell them why you are closing."

Rasher agreed, and that evening word was spread that he would speak at the old Arcade theater the following night.

A big crowd, among which were over two hundred women, assembled to hear him.

There was no delay. Harry L. Rasher walked out on the stage and stood on the same spot where he had fought Tony Romsky a few weeks before and crushed him before the amazed eyes of six hundred workmen.

Rasher wasted no words. He said he had come to tell the truth about the Pioneer stores. He reviewed their wretched record up to the time he had opened his store and the cut rate war since that had supposedly frozen him out. The audience gave him close attention.

Then he said: "The man behind the Pioneer stores is James Stabb, manager of the Lannard mills. Expressions of indignation swept through the audience. 'He is the secret power, and his connection is in direct violation of the rules of the Lannard company. He is deceiving the owners as well as you, the workers. Nearly all the misfortunes and distress in this town can be laid directly at that man's door.'"

This remark was greeted by a roar of approving voices.

James Stabb is old fashioned in his ideas. Other plants have adopted modern methods in their treatment of employees, but Stabb stubbornly clings to the old theories. And what are those theories? He says he doesn't believe in pampering his men. He says his only obligation to the workers is to pay them their wages. Their obligation is to do a full day's work.

Poor Old One Per Cent!

"And the one per cent will have to undergo a purifying state in some sort of hospital, and in more or less isolation. But God is a God of mercy, and the old theories with which we frightened children will not torment the dead."

The English lecturer is pleased with the open minded attitude of the American public toward investigations in spiritism, and finds it a pleasant relief after the "angularity" of Toronto.

America Is Big-Breasted.

"Now that America has been awakened to the possibility of communication with the other world," said Sir Arthur, "I believe this country will go far with it."

"But America," he said, "needs a law regulating the activities of so-called spiritualists. Every big movement has its parasites and real spiritism has charlatans of all sorts, fortune tellers, fakirs who ought to be prosecuted. Any fraud should get at least ten years. As it is now, all reputable spiritists are under the shadow of the law."

Will Show Spirit Photos.

Ectoplasm, according to Sir Arthur, has now become international. Ectoplasm is a combination of matter and ether which emanates from the bodies of mediums and can be photographed. Since his arrival in this country with his collection of spirit photographs local photographers began investigating ectoplasm, with the result that at the Chicago lecture Friday night Sir Arthur will exhibit, for the first time, several made in America photographs of spirits.

Saturday night in Toledo, at a séance with Miss Ade Rossett, America's greatest medium, according to the lecturer, Ernest Shackleton, the late explorer, was one of ten materializations. "So realistic was he," said Sir Arthur, "that an old friend of his cried out in excitement at recognizing him." The explorer's name had not been mentioned, he said.

Letter from Hero Son.

At the same séance Sir Arthur received a scribbled letter purporting to have come from his son, Kingsley, slain in the war.

Declaring that most of the present "spiritist devices are clumsy affairs," Sir Arthur expressed a hope in the use of radio as means of communication with the other world.

Sir Arthur's plans after death are brief: "I shall continue the work I am now doing, but from the other end of the tunnel."

Speaking of his present work, the English lecturer said: "I never accept a lecture without my lectures. In Australia I turned it over to the work of spiritism there. But America has enough money. I shall take any profits there may be back to the work in England. I am not chasing the dollar myself."

Saves Christianity.

"Spiritism is saving, not attacking Christianity," insisted Sir Arthur. "When only one out of every ten persons attend church something is wrong."

Sir Arthur will lecture tomorrow night at Orchestra Hall on "The Proof of Immortality." Friday night he will give a demonstration of "Recent Psychic Evidence" and will show his collection of photographs.

Kill Husband, Shoot Wife from Ambush

Murder or accidental shooting? That question the police of Aurora were striving to answer last night, following the killing of Eugene Hummer, accountant, and the wounding of his wife, Bessie, by bullets from an automatic pistol, in Fox River park, near Aurora, late in the afternoon.

Hummer was sitting with his wife on a bench when it happened. Near by played their 11 year old daughter, Edith. Suddenly a shot was heard. Mrs. Hummer cried out in pain and sank down on the bench. Hummer leaped up and shouted in the direction from which the shot came across the river. Another shot was heard. It pierced his heart and he fell dying at the water's edge.

Automobile Speeds Away.

Immediately, witnesses later told the police, a commotion was seen among a number of men on the other side of the river, which at that point is about 300 yards wide. Three automobiles were seen to speed away towards Chicago on the concrete road which runs close to and parallel with the river. Several men were in each car.

Hummer died on the way to the Aurora hospital. Mrs. Hummer had been shot in the shoulder near the lung. Her wound was not considered serious.

Although a number of persons from Chicago and Aurora were in the park for Sunday afternoon outings, few witnesses could be found by the police when they arrived some time later. Chief of Police Frank Michel, of Aurora said he talked with several women who were vague on details. The only connected story was obtained from Hummer's young daughter, Edith. Mrs. Hummer was unable to tell much.

Suspect Drinking Orgy.

"I was able to establish, however, that three cars containing men were driven away after some scurrying about on the other side," the chief said. "The bullets were from an automatic pistol. Our theory is that if this is no murder, it is the work of Chicago gunmen on a moonshine orgy. Crowds of rioters charged to the river bank to drink."

At the same time Chief of Detectives Adolph Wenz of the Aurora force was investigating a statement that Hummer some time ago had trouble with a man in Chicago. Police and county officials generally expressed the belief that an accidental shooting of such a curious nature would be something akin to a phenomenon.

Another fact considered by the police is that there is an island about midstream and slightly downstream from the bench on which the Hummers were sitting.

Search Island for Clues.

The river at this point is said to be wider than at any place in its course. Investigation of the theory that an enemy of Hummer might have secreted himself in the foliage on the island and fired from there was being made. Police late at night still are searching this island.

In support of the murder theory it was pointed out that it would be much easier for the killer to have picked off his victim from among other persons in the park from this island than it would have been for him to shoot from the nether shore of the river.

It was also quite positively established that the bullets which killed Hummer and wounded his wife were automatic pistol bullets, and that any one firing from the opposite shore would have been more likely to fire from a rifle.

Little Hope of Recovery of William T. Abbott

Washington, D. C., May 21.—[Special.]—Little hope is held out for the recovery of William T. Abbott, vice president of the Central Trust company of Illinois, who is at the Emergency hospital suffering from infection resulting from the bursting of the appendix. "Mr. Abbott's condition is unchanged," said the hospital tonight. "He is barely holding his own."

Wife of Chicago Shoe Man

Suicide at Asbury Park

Asbury Park, N. J., May 21.—Mrs. Madge Lewis, wife of Oliver Lewis, a Chicago shoe manufacturer, shot and killed herself in her apartment here yesterday. It became known today. The body was found by a nurse who had been attending her for two weeks.

Why? The Sergeant Didn't Know.

The story of the other girl, Miss Maybelle Burns, was even more unusual. She told Sgt. Joseph Norris of the Englewood police, that the reason for her attempt to asphyxiate herself was the theft of her two "prettiest dresses."

But in seeking a more usual explanation Sgt. Norris considered not only the tragedy of the missing dresses, he said, but also the part that two suitors might have played. And he found a diary. An entry made Saturday night told of the loss Miss Burns, who lives at 403 West 63d street, sustained.

It also told of Andrew Feil and Jack Swartz. They, the sergeant said, were the men in the case. The girl was found in her bedroom with one of two gas jets open. The police records show the case as an accident. But Sgt. Norris insists she told him "life wasn't worth living."

Freighter Rescues 236 from Egypt.

BULLETIN.

[Chicago Tribune Special Service.]

PARIS, May 21.—Ninety-eight persons are missing and are believed to have perished when the P. & O. liner Egypt sank off the coast of France Saturday night, according to an official message received from Brest late tonight.

(Picture on back page.)

BREST, France, May 21.—[By the Associated Press.]—Nearly 100 persons perished last night when the P. & O. liner Egypt sank off the coast of France Saturday night, according to an official message received from Brest late tonight.

The Egypt sailed from London for Bombay Friday with forty-four passengers and a crew of 230. A roll call on board the Seine after the disaster showed that at least fifteen of the passengers and eighty of the crew of the Egypt were missing.

The collision occurred during a dense fog within twenty-two miles of the Armen lighthouse. The dinner gong was about to be sounded on board the Egypt. Many of the passengers and most of the crew were on deck.

The shock threw several persons into the sea; others jumped, and a number went down with the ship, which sank in twenty minutes. The Egypt was rammed amidships on the port side.

The Seine badly damaged, rescued Brest today with twenty-nine rescued passengers, more than 200 of the crew, and the bodies of twenty dead. The captain of the Egypt is among the saved.

When the collision occurred there was a rolling sea. Some of those rescued charged that the Indian sailors on board the Egypt took to the lifeboats as soon as the vessels crashed, so that a large number of the passengers and crew had to shift for themselves.

Cling to Bits of Wreckage.

Those who jumped into the sea and who could swim scrambled about for bits of wreckage to which they might cling. Many of these were rescued. They floated about in the fog after the Egypt went down calling for help. The sound of their voices directed members of the crew of the Seine in small boats who were patrolling the sea, picking up both living and dead.

In some instances the rescued crews came upon persons clinging to bits of debris who let go and sank just as aid for them was at hand. The small boats on numerous occasions sought vainly to locate persons lifting cries of distress through the fog. Among the known missing are the doctor and chief engineer of the Egypt.

The Egypt was a vessel of 8,000 tons. The Seine was bound for Havre when the disaster occurred.

Captain Tells of Disaster.

Capt. Le Barrie of the Seine, in describing the disaster said: "I was at my post on the upper bridge Saturday evening at 7 o'clock, 15 miles from Armen light. The sea was calm, with a slight swell. The fog was very dense. I was under way for fog horns and proceeding at the slow speed of five knots.

"In less than ten minutes I saw a great steamer emerged from the fog. It struck my ship and tore away the forward works and moved on at great speed. I immediately ordered the engines reversed.

"I saw nothing further. Then I began to hear cries of horror that told me of a catastrophe. I went in search of the stricken vessel in the fog and darkness. I found her in twenty minutes.

Ready to Turn Over.

"She lay on her port side, ready to turn over. Water was pouring into a long, deep tear in her side plates. Cries and wails of despair were to be heard coming from the steamer. Passengers were seen running about on the decks, as the steamer was about to go under. I saw a man throw himself into the sea with two little children in his arms. The shipwrecked people in the sea clung to floating debris. I had all my lifeboats lowered. It was particularly perilous work, for we were on the main path of vessels going from the open sea to the English channel. I stayed at the scene of the wreck until twenty minutes after 11 o'clock Saturday night."

May Be More Survivors.

It was said late tonight that there might be more survivors of the disaster, since the steamer Cap Itasca was nine miles away at the time of the collision, and hurried to the spot and may have

Two American Women Lost.
LONDON, May 21.—[By the Associated Press.]—Two American women, Mrs. M. L. Shiley and Miss V. M. Boyer, were on board the steamer Egypt, and are missing, according to the Peninsular and Oriental line officials here. Their home addresses are not known to the company. R. F. Bevan, another American, was saved.

Late tonight the Peninsular and Oriental Steamship company announced that only thirty-eight passengers had sailed on the Egypt and gave out a list of the names of twenty-eight of these passengers who were rescued and landed at Brest.

Accuses Hindu Sailors.
BREST, May 21.—[United News.]—Hindu members of the crew, ignoring all laws of the sea and humanity alike, seized several lifeboats and held off passengers with revolvers, according to the story told by the captain of the Egypt on his arrival here. This cold-blooded conduct incensed the British survivors.

Why So Few Boats Launched?
[Copyright, 1922, by the New York Times.]
PARIS, May 21.—One of the strange features of the sinking of the steamer Egypt is that not more boats were launched in the twenty minutes before the ship went down and from that fact and other evidence it appears that there was some disastrous trouble with the Lascar crew. In twenty minutes it should have been easily possible to rescue all forty-four passengers aboard, but at the time the Seine arrived on the scene there were only four or five boats afloat and scores of people were in the water.

Both officers and passengers of the Egypt, however, refused to make any comment over the long distance telephone, and it appears that an agreement has been made among them not to discuss the accident except officially. One of the survivors, Lieut. Col. Franklin of British Indian army, said that such an agreement had been made and that the only statement which he could make was that the Egypt was going down slowly at the time of the accident. The death of fifteen passengers among forty-four and fifteen of the white crew is a percentage which in the circumstances of the accident will demand close inquiry.

SIDNEY AINSWORTH.

Madison, Wis., May 21.—[United News.]—Sidney Ainsworth, 50 years old, well known actor of the legitimate stage, and in later years a moving picture actor, died here today at the home of his mother, Mrs. Jeanette Ainsworth. He has been ill since his return from California several months ago.

Ainsworth, who came to this country from England when an infant, was a co-star of Maude Adams in "The Little Minister," and later played with Robert Edeson, Jack Barrymore and other stars.

He entered motion pictures in 1909.

Wife of Slain Sheriff Held After Investigation

Ravenna, O., May 21.—Mrs. Marguerite Carille of Kent was lodged in the Portage county jail last night in connection with the shooting of her husband, Arthur Carille, former sheriff, April 5. The arrest was ordered by Prosecuting Attorney Filiault, after private detectives had been employed on the case. It was announced, Carille was shot to death while lying in bed beside his wife. The latter testified at the coroner's inquest that she was awakened by the shot which had killed him.

RUSSIA CODDLES ITALY AS GUNS SINK STEAMER

Half of the Italian Crew Meets Death.

GENOA, May 21.—[By the Associated Press.]—While Foreign Minister Tschitcherine, head of the Russian delegation, was paying high compliments to the Italians for their handling of the Genoa conference, news was received that the Italian steamer, Marte, was fired on and sunk in the Black sea by Russian batteries and half of her crew killed. There also arrived a report on the address of Leon Trotsky, the soviet war minister, to Communist cadets.

M. Trotsky is reported to have said to the future red officers: "Don't believe in the Genoa speeches; trust only in your bayonets and your batteries. Conference will not give us what we need; this can only be obtained by winning the Red army cross the frontiers of capitalist states and the Red flag wave over the whole of Europe."

"Perhaps during the summer the Red army will be called upon to give proof of its fighting force."

As M. Tschitcherine, as the representative of the Soviet, gave his adherence to the nonaggression pact, delegates still here are asking: "Which of the two really reflects the thoughts of the soviet government?"

Meanwhile reports just received from Novorossisk, to which place the steamer Scyllia has taken a relief mission of the Italian Red Cross, are more terrifying than ever. Southern Russia, the reports declare, has been transformed into "a great cemetery of starving people. Men, women and children are dying of starvation, not by the thousands, but by the millions."

M. Tschitcherine, in bidding farewell to Premier Facta and Foreign Minister Schanzer, said today: "Ancient ties have united the Italian

PRESIDENT MAY ASK RAIL UNIONS ON BAND WAGON

Awaits Rates Reply of
Executives.

BY ARTHUR SEARS HENNING.
Washington, D. C., May 21.—(Special.)—An agreement by the railroads to reduce freight rates materially and to accept a reduction of wages would be the outcome of President Harding's move to cheapen transportation as a means of reviving business.

In the event that the carriers fail to accept the President's hope that they will accept a reduction of rates on basic commodities, the President's commission on interstate commerce will have to take the matter into its own hands at liberty to authorize it to take such action as it may deem wise.

The railway executives who attended the dinner at the White House last night had a conference today before their departure from Washington at which the situation created by the President's appeal to reduce rates was discussed.

Executives in Stormy Conference.
Afterward their spokesmen said that no time would be lost in appointing the committee which is to study the situation and to inform the President of its findings.

It transpired today that the discussion following the dinner last night was one of the warmest that has taken place in the White House in years. Some of the rail executives reported to have taken sharp issue with the contention of the President that the lowering of freight rates, particularly on coal, steel and iron, lumber, and other basic commodities, is all that is needed to revive industry.

President's Opinion Disputed.
Statistics were quoted to prove that industrial inactivity is not attributable to high transportation charges and that the reduction of rates already effected had not increased the volume of business in the commodities concerned. The hard times from which the country has been suffering are the result of the economic dislocation wrought by the war, it was contended, and until the readjustment has progressed further no marked industrial revival can be expected, even if freight rates were lowered to prewar levels.

On the question of the radical rate reductions at which the President is urging the carriers only brought up the matter of wages. They contended that as a business proposition any radical decrease of rates is not justified so long as the cost of operation remains at its present abnormal level.

By War Wage Cost Keeps Up.
The cost of operation wages continue to be the big item. It was pointed out that the railroads' pay roll today is \$1,000,000,000 greater than in 1916. How they can obtain the revenue to meet the high cost of operation is a matter which the President has not yet decided.

The President asked the carriers to reduce their rates radically and voluntarily because the Interstate Commerce Commission has found it beyond its power under the transportation act to make any general reduction.

I. C. C. Ruling Held Back.
The act provides that the rates shall be fixed at a level which will produce a fair profit to the carriers and that the commission shall make a finding as to what it considers a reasonable return. The 6 per cent guarantee provision has expired.

The commission has completed its decision making some rate reductions as a result of the recent inquiry it has conducted and was ready to issue the ruling yesterday. It was held up, presumably at the instance of the White House, to enable the President to see what could be done to bring about more radical reductions.

By paying immediate attention to the repairing of your fur, you will receive the benefit of lower summer prices and the extra degree of care which we are enabled to give to this work during the summer season.

Repairing and storing in time will save your fur and save you money.

BUSINESS MEN CELEBRATE BOYS' WEEK

BOYHOOD TREND AS CITY POINTS, LEADER HOLDS

Fair Chance Means a
Better Chicago, View.

"Where are the men to lead?" asked William Lewis Butcher, superintendent of Brace Memorial Newsboys' house, New York, and originator of Boys' week, at a meeting of the Sunday Evening club at Orchestra hall last night.

"Clean-handed, clean-hearted men who see boys' need for leadership are in demand," he declared. "Boys' work is a business proposition that pays large dividends. And the city that doesn't shape its boys is doomed."

Outgrowth of Cooperation.
Boys' week is an outgrowth of cooperation between boys' workers and business men, Mr. Butcher said. The boys that marched down Michigan avenue in the rain Friday, he asserted, carried the invisible banner, "Give us a chance, and we'll give you a better Chicago than you gave us."

The Rev. Josiah Sibley, the next speaker, asserted that God's way with a boy is nature's way. "Give us a chance, and we'll give you a better Chicago than you gave us."

Advices Real Religion.
"We have approached the boy too long from the avenues of adult life," he said. "We don't give him a real boy's religion when he wants it, and when he is adult he doesn't want religion."

Yesterday, which was Boys' day in church, was celebrated city-wide by special services.

GIRLS INSIST UPON "DOLLING UP" EVEN IN REFORMATORY

Bedford, N. Y., May 21.—(Special.)—Although girls in the state reformatory for women here are as secure from observation by masculine eyes as are the inmates of a nunnery, they are up in arms over a new set of rules which forbid them, among other things, to paint their cheeks, blacken their eye brows or lashes, powder their noses or dress in "snappy" clothes.

So far as social contact goes, the reformatory is "No Man's land," but according to Maj. Amos T. Baker, superintendent, the inmates "love to doll themselves up."

Sunburned knee caps, gossiping and phonographs are taboo. All skirts shall be worn "not more than twelve inches from the ground," the rule says. This, it was explained, is intended to teach modesty.

He had gone by a few rods when he felt a revolver muzzle against his back. He resisted and was robbed, beaten, and thrown out.

KEEP LEAGUE OUT OF SENATE, VIEW OF MARSHALL

LONDON, May 21.—Thomas R. Marshall, former vice president, is staying at the Savoy hotel in London. He is en route to Lausanne, Switzerland. He declined to make a statement with regard to the political situation in America and England.

"I am not discussing American politics," he replied to a question from a Tribune correspondent, "because there is nothing I could say that would contribute to the good of the world and the hope of mankind for a peaceful solution of its vast difficulties."

Referring to the league of nations, he said, "I was for the league, but I am not in the councils of the present administration. It seems to me that, having made separate peace with Germany and having secured a four power treaty, it should not even contemplate again presenting the Versailles treaty to the senate."

PREMIER HEADS BULGAR REBELS, VIENNA HEARS

Reports on Red Uprising
Are Conflicting.

(Picture on back page.)

VIENNA, May 21.—(By the Associated Press.)—Conflicting reports have reached here of a Bulgarian revolution. Dispatches from Belgrade say that King Boris has fled to Varna and that Premier Stamboulsky, who represents the peasants and agrarians, has with his followers proclaimed a republic.

A state of civil war, it is further reported, exists, and fifteen Gen. Wrangel's officers have been expelled.

Agram advices, however, declare that a train from Sofia arrived at Belgrade yesterday afternoon and these aboard reported comparative quiet. Gen. Alexandrov having issued a counter proclamation at Sofia calling upon the populace to remain loyal to the king.

Report Russia Exerts Pressure.
Foreign Minister Tchitcherine of Russia and Premier Stamboulsky, according to an Agram paper, reached an agreement at Genoa, that if the Bulgarian premier would expel Wrangel's troops from Bulgaria he would have the support of the entire Bulgarian communist element. A dispatch to the Freie Presse from Sofia says that an attempt to carry out the expulsion of these troops precipitated trouble.

The Bulgarian legion and the Austrian foreign office are wholly without advice on the reported revolution. Information received here is limited to conflicting Jugo-Slav press reports.

London Hears King Flees.
LONDON, May 21.—(By the Associated Press.)—A Central News dispatch from Belgrade gives a report from the frontier that the Stamboulsky party in Bulgaria has united with the Communists and proclaimed a republic. King Boris is reported to have fled to Varna.

Revolt Denied by Paris Envoy.
PARIS, May 21.—(By the Associated Press.)—The Bulgarian legion here has issued a categorical denial of the published report that a communist revolution has broken out at Sofia and that King Boris has fled to Varna.

"News from Sofia last night," says the statement, "shows that complete calm reigns throughout the whole country."

GERMANY PLOTS TO WIN ALSACE, POINCARÉ SAYS

Claims Propaganda Is
Spread in U. S.

ST. LOUIS, Mo., May 21.—(By the Associated Press.)—The keynote of Premier Poincaré's first public speech since the close of the Genoa conference, was distrust of Germany and the resolve of France to obtain war reparations. The occasion was the congress of the French National Veterans' association today, at which representatives of the American, British and other veteran associations were present.

M. Poincaré, mindful of the city in which he was speaking, seized the opportunity to denounce what he termed "the insidious plottings of Pan-German propaganda at home and abroad, notably in America, to separate Alsace Lorraine from France."

M. Poincaré declared that the peace which had come from victory must not be disturbed, compromised, nor turned little by little against the victors.

Denies Imperialistic Designs.
"None of you cherishes feelings of hatred and violence," said the premier. "None of you nourishes these imperialistic designs so freely attributed to us by interested calculators."

"On the contrary, we all wish to bring peace back to the hearts of all, but here we are too near the frontier to cherish illusions. Alsace would never believe the fable of German disarmament; Alsace divides only too clearly what is hidden behind the police organizations and knows too well what deposits of arms are daily discovered in the Reich territory. Neither can Alsace believe in the moral disarmament of Germany."

Charges Propaganda in U. S.
"Do we not see developing in a number of countries, notably America, a German campaign of leaflets and pamphlets in favor of the autonomy and neutrality of Alsace-Lorraine?"

"Germany, vanquished, promised to repair the evil she has wrought to us," he concluded. "You who are the witnesses of the ravages her arms left behind will not suffer that promise to be ignored."

Flees to London; Husband
Hunts Her in Italy.

KANSAS CITY, Mo., May 21.—Mrs. Julia Woods Davies, heiress to the millions of the late Dr. William S. Woods, Kansas City banker, who fled from Rome with Capt. Zeltun, a Britisher who posed as a Scotland Yard operative, will sail for the United States from London May 27, according to a Mr. Wilhelms of Excelsior Springs, Mo., a trustee of the Woods estate.

Mrs. Davies' fourth husband, George Westland Davies, is now in Rome conducting a frantic search for his wife. He believes Zeltun is a confidence man.

Hears from Husband.
Mr. Wilhelms said money for the expenses of Mrs. Davies' trip to America was cabled to London last Thursday. He denied that Mrs. Davies' income of \$1,000 per month had been held up.

Mr. Wilhelms was aware that Mr. Davies had returned to Rome to find Mrs. Davies had gone away with the British captain. In a cable Friday from Florence to Mr. Wilhelms, Mr. Davies stated he had been unable to find trace of his wife.

Could Only Lose Income.
Mr. Woods in his will provided that his estate should be held in trust for ten years. The trust will not expire until 1927, so Mrs. Davies, if she lost any money to the clever British captain, parted only with the income from her share of the estate.

The former husbands, all of whom were divorced by Mrs. Davies, were Arthur Griscom, founder of the Smart Set Magazine; Jesse W. Rubey, and Frank M. Dickinson, an interior decorator, now living in New York.

Mrs. Davies has a daughter by her first marriage with Arthur Griscom, magazine writer, who, after their divorce, sued her father for alienation of affections. He obtained a judgment of \$15,000.

WU FIGHTS FOR EXPOSE OF VAST GRAFT IN CHINA

President Hsu and Cabinet Resist Conqueror.

BULLETIN.

HONGKONG, May 21.—(By the Associated Press.)—Sun Yat Sen's southern army is driving northward into the province of Kwangsi, and the troops of the military governor, Chen Kuang-Yuan, are reported to be fleeing in disorder.

Gen. Li Ming-Yang, commanding the southern forces, has captured the Lungnan and Klennen districts, near the southern border of Kwangsi, and is launching an attack on Sinfeng. The latter town is situated on the Tao Kiang river about 180 miles northeast of Canton.

Military Governor Chan of Kiangsi is asking Gen. Wu Pei-Fu to send him reinforcements immediately.

BY CHARLES DAILEY.
(Chicago Tribune Foreign News Service.)
PEKING, May 21.—Gen. Wu Pei-Fu, who is still in Paoingfu, received an inquiry from Dr. Sun Yat Sen as to Gen. Wu's terms. The latter is not likely to negotiate with Dr. Sun, since he considers Dr. Sun a distracting element. The Canton government is fast nearing a state where Dr. Sun will find it necessary to seek the best terms he can get since Tang Shao Yi and Cheng Hung Ming favor a reconvoction of the parliament of 1917, to which, and the Canton government was formed.

LIEUT. LOFTUS, YEARS IN BLUE, CLOSE TO DEATH

Members of the family of Lieut. Michael Loftus, thirty years a police-

man, were called to his bedside at the Columbus Memorial hospital yesterday, where he has been critically ill several weeks. Attending physicians doubt if he would recover.

Lieut. Loftus became a police man in the early nineties. During the administration of Mayor Busse he was assigned to the mayor's office as sergeant, and a warm personal friendship developed between them. He was soon promoted to a lieutenant.

For four years Lieut. Loftus has commanded North Robey street station. Previously he was for a number of years at West Chicago avenue.

stale for the reunification of China. Gen. Chang has returned to Manchuria, where communication has been restored, and since the censorship is favorable to him it prevents accurate news of his doings. He is apparently doing nothing yet.

A real test of President Hsu's position is expected momentarily since the cabinet has issued a statement classifying Gen. Chang as a rebel, because of his alleged declaration of independence. Thus is becoming incumbent for President Hsu to order the suppression of Gen. Chang, and possibly to send an army to Manchuria. Gen. Wu would naturally be the leader of such an army, but no orders have yet been given.

President Must Act.

Inasmuch as Gen. Chang is certain either to attempt to hold fast where he is or to flee into a Japanese zone, the president is bound to take some action regarding the Manchurian provinces, thus either siding or breaking with Gen. Wu.

OBREGON TROOPS SMASH GREENE REVOLT IN SOUTH

MEXICO CITY, May 21.—(By the Associated Press.)—The war office de-

clined today reports of the capture of Villahermosa, capital of Tabasco, yesterday by rebel forces under Gen. Carlos Greene.

It says Greene's rebels were defeated Saturday at the San Pedro ranch, on the road between Villahermosa and Frontera, and that a band commanded personally by Greene was encountered at Enruchada and dispersed after a sharp skirmish.

A roundup of alleged conspirators against the federal government was made Saturday night by Gen. Jesus M. Garza, commanding the Valley of Mexico troops. In consequence two generals, two captains, one lieutenant and two civilians are under arrest. The

two generals are Salvador Gonzalez and Gabriel Guevara. All deny complicity in a plot against the government which was reported to have been started by adherents of Pablo Gonzalez. The newspapers indicated that all the men will be released.

Rum Runners and Dry Agents in Fierce Battle

El Paso, Tex., May 20.—Six members of an alleged liquor smugglers' band are believed to have been wounded tonight in a clash with sixteen federal prohibition agents, armed with automatic rifles, who surprised the band as they were endeavoring to cross a ford on the Rio Grande river near here. More than 100 shots were fired before the smugglers were dispersed and escaped.

POLICE SEEK BOY OF 7.
The Austin police were asked to search last night for John Gallop, 7 years old, 4930 Rice street, who disappeared from his home yesterday morning.

What Will Advertising Do for ME?

Abstract contemplation of advertising as a technical subject may be only mildly interesting to you. But under present-day business conditions every business man who has a commodity or a service to sell owes it to himself to ask the question: "What might advertising do for ME?"

It is important to know that ours is an organization that can help you get a satisfying estimate of the place that advertising can occupy in your business—and give you an answer in advance—before you spend a dollar for space.

The foundation of our effectiveness is 18 years of experience with a remarkable group of great concerns. Our service is organization work of the highest order. We welcome inquiry.

American Opera Singer Makes Success in Berlin

(Chicago Tribune Foreign News Service.)

BERLIN, May 21.—Eleanore Sawyer of New York, who has been singing in Italy and France, started Saturday in Berlin in the former Royal Opera house as Santuzza in "Cavalleria Rusticana." Miss Sawyer, who does not speak German, learned the words of the part in a few days and achieved one of the greatest successes of the season. Even the press, usually unfriendly to new names, admits that her success justifies the efforts of Director von Schilling to draw more American singers to Berlin.

Widow Faces Trial in Alleged Fake Gem Theft

Freehold, N. J., May 21.—(Special.)

Mrs. Sarah L. Robertson, wealthy widow of Deal Beach, N. J., will go on trial here on Wednesday on a charge of conspiring to defraud the company which had insured her jewels for \$85,000. Co-defendants of Mrs. Robertson are John Bailey, a young express messenger, and John Gaen, an interior decorator, accused of putting into operation a holdup plot planned, it is alleged, by the widow, in which the jewels were "stolen."

ALASKA IS OFF, NO PO DELEGATE

Sees Drayton's U. S. Rule Mi

(BY A STAFF CORRESPONDENT)
Washington, D. C., May 21.—The pessimist Thomas B. Drayton, who has been in Alaska as a "bureau government," and future officials in Washington, Sutherland of Fairbanks, territorial delegate in Congress, unsuccessfully opposed in the recent primary in Alaska.

"I've only recently Alaska," Mr. Sutherland said during my camp and during my camp told the people they 'You can be glad, I am living in Alaska.' Of course everything is a story as it might be, but there are very serious changes in the territory's prosperous future it is to expect. But there are people in Alaska."

The last statement Sutherland is abundant by the number of inmates in 1919, the latest figures are obtainable 17.17 per cent of the total paid an income tax, the from any state or territory American flag. The to it was the District where the percentage the next Nevada where age was 11.29. For 1911 New York 6.58, Iowa 8.43, and California 11.17 per cent only 1.33 per cent paid an income tax. ALASKA IS WELL OFF, NO POVERTY, DELEGATE SAYS

Sees Drayton's Views on U. S. Rule Misleading.

(By a Staff Correspondent.)

Washington, D. C., May 21.—[Special.]—The pessimistic views of Thomas B. Drayton concerning the present condition, under what he describes as a "bureaucratic system of government," and future prospects of Alaska are not shared by government officials in Washington nor by Dan A. Sutherland of Fairbanks, Alaska, territorial delegate in congress, who was successfully opposed by Mr. Drayton in the recent primaries campaign in Alaska.

"I've only recently returned from Alaska," Mr. Sutherland commented, "and during my campaign up there I told the people they were in luck. 'You can be glad,' I said, 'that you are living in Alaska.' And it's a fact, of course everything is not as satisfactory as it might be. Some conditions there are very serious and must be changed if the territory is to have the prosperous future it has every right to expect. But there aren't any poor people in Alaska."

Leads in Income Tax.

The last statement of Delegate Sutherland is abundantly borne out by the number of income tax returns filed in 1919, the latest period for which figures are obtainable. In that year 11.7 per cent of the people of Alaska paid an income tax, the highest return from any state or territory under the American flag. The nearest approach to it was the District of Columbia, where the percentage was 18.40, and the next Nevada where the percentage was 11.29. For Illinois it was 6.51, New York 6.58, Iowa 5.57, Washington 4.41, and California 7.78. In Mississippi only 1.33 per cent of the people paid an income tax in that year. It is significant also that the average income upon which taxes are paid is lower in Alaska than in any state, indicating that while the number of large incomes is small, the wealth in

Alaska is more widely distributed than anywhere in the states.

Permanent Whites Increase.

The decrease of about 10,000 in the population since 1910 is not considered alarming in view of the fact that the permanent white population as shown by the census returns has actually increased.

"The white population of 1900 and 1910 was not a permanent population, as was shown by the disparity between the sexes," according to E. A. Sherman, associate forester, who has made a special study of Alaskan conditions. "The census returns for 1920 show 500 men to every 100 women. In 1910 there were only 6,066 white women in the territory. In 1920 the census returns show 7,297, an increase of about 20 per cent."

"Permanency of population is determined by the relative equality between the sexes. There was, therefore, as a matter of fact, an increase of 20 per cent in the permanent population of Alaska during the last ten years. It is true that the gross population fell off about 10,000, 9,457, to be exact. This is due to two causes—to a

return to the states of the floating population and in part also to the fact that the enumeration of 1910 was taken as of April 15, while the enumeration of 1921 was taken Jan. 1.

Take Vacations in Midwinter.

"The number of people in Alaska is much greater in April than in midwinter. Even the permanent residents take advantage of the slack season to make business or pleasure trips to the states in the winter months when the time can best be spared."

"There has been a loss in population also in Yukon territory, just across the line in Canada, due to the same causes that caused a shrinkage in the gross population of Alaska."

"Naturally when the placer mines were worked out the same thing happened that has happened in every other placer camp. The people left. The discovery of gold on Nome beach resulted in a stampede which brought not less than 30,000 people to the Nome district in a single season. But the exhaustion of the rich placer gold along the shore leaves the Nome district today with a population of only about a thousand. The people did not leave because of bureaucratic government but because the rich diggings were worked out."

Furthermore, it is pointed out, in the total decrease of 9,457 between 1910 and 1920, were included 1,133 Chinese and 601 Japanese, a loss that Alaska is said to bear with equanimity. This explanation is endorsed by Mr. Sutherland, who does, however, share the apprehensions expressed by Mr. Drayton in regard to the future of the salmon industry. So, in a less degree, does Mr. Sherman.

"There is considerable merit in Mr. Drayton's statement about the depletion of the salmon fisheries," Mr. Sherman says. "In their greed for quick profits the cannery men have been inclined to encroach upon the entrance to spawning streams in spite of the efforts on the part of the bureau of fisheries to prevent this."

"Many of the halibut fisheries are already sadly depleted. I do not think there is the slightest danger to the herring fisheries by overfishing for a

great many years to come, while the cod fisheries, which are said to be the greatest in the world, far surpassing the banks of Newfoundland and the fisheries of Norway, have as yet scarcely been touched."

Seal Industry Saved.

"Yes, the seal industry has been seized and monopolized by the bureaucracy, but first the industry had been brought almost to the vanishing point under the exploitation of a corporation."

Mr. Sutherland goes farther than Mr. Sherman in his views as to the condition of the salmon fisheries and the remedy. He makes the flat charge that the fish commission has been dominated by the salmon packers and cannery men and that its regulations for the protection of the fish supply have been by no means adequate. He advocates a law prohibiting absolutely all commercial fishing for a period of years in order to save the salmon from extermination of the rich place gold.

The condition of the fisheries and the exorbitant freight rates charged by the Alaska Steamship company, owned by the Guggenheims, and the Pacific Steamship company, operating the Admiral line, which, so far from competing with, follows the Guggenheim line, are the two most serious difficulties facing Alaska at this time, in Mr. Sutherland's opinion.

Keep Up Wartime Rates.

"In spite of a cut in wages of one-half, and 20 per cent off on the price of supplies and appliances, and a bonus of \$60,000 from the government for carrying the mails, which is an absolute gratuity, the Guggenheims still are charging war rates except for a small reduction to the canneries," Mr. Sutherland asserted. "And there is no other place on the face of the earth to which where water rates have not dropped from 20 to 50 per cent."

Appeal has been made to the shipping board, Mr. Sutherland said, but he doubted if anything can be done until the exports from Alaska justify the entrance of competing lines.

With this object in view, he is in-

clined to favor liberalizing the oil leasing laws to encourage the entrance of capital and the development of the oil lands. The coal land laws he regards as more satisfactory.

This view is held also by Dr. Alfred Brooks of the geological survey, who served as chairman of the Alaska advisory committee which submitted its report in June, 1920.

Service Satisfies Alaskans.

"I have had many intelligent Alaskans come to me and say that they cannot understand the basis of all this criticism of the federal government," Mr. Sherman said, "that to their mind the work being done in Alaska by the federal bureaus, such as the forest service, the states relations service, the lighthouse service, coast and geodetic service, the bureau of education and others, is exceedingly helpful to the territory and that the territory would be benefited if their activities were increased rather than diminished or curtailed."

HARDING ABSENCE AMAZES WOMEN AT DEDICATION

(Picture on back page.)
[BY A STAFF CORRESPONDENT]
Washington, D. C., May 21.—[Special.]—President Harding changed his mind at the last minute and did not attend the dedication today of the headquarters of the National Woman's party. His letter, though dated May 20, was not received at the headquarters until shortly before 3 o'clock, the hour set for the ceremony, and no explanation accompanied it.

Miss Elsie Hill, chairman of the party's national council, at once called at the White House, but was given only a copy of the letter, which had been addressed to the President by Mrs. John Gordon Battelle of Ohio, chairman of the committee on arrangements.

No reference was made by any of the speakers during the ceremonies to the President's change of heart, the only action in regard to it being the issuance just before the services opened of a statement quoting the two letters received from the White House.

The President's letter.
The text of President Harding's first letter follows:
"The White House, Washington, Dec. 22, 1921.
"My Dear Mrs. Battelle:
"I am writing to confirm the appointment made by the President to attend the dedication and the laying of the corner stone of the building of the National Woman's party at 3 o'clock Sunday afternoon, May 21, 1922.
"Sincerely yours,
"GEORGE B. CHRISTIAN, JR.,
"Secretary to the President."
At 2 o'clock on May 21 the following

PATRONESS

letter reached the headquarters of the National Woman's party:
"The White House, Washington, May 20, 1922.
"My Dear Mrs. Battelle:
"When you invited me, many weeks ago, to be in attendance at the dedication of the national headquarters of the National Woman's party, to be held Sunday, May 21, 1922, the invitation was accepted. I am writing to say it will not be possible to be present.
"I share with you and your associates a rejoicing in the enfranchisement of the women of the United States, and I very truly wish that

the larger opportunity for American womanhood will be marked by the highest ideals, lofty patriotism, noble inspirations, and great good to our common country.

"Very sincerely yours,
"WARREN G. HARDING."

Speaker Ignores Harding.

With the President conspicuously absent, the ceremony was carried through, the only departure from the program being the omission by Mrs. Letitia Jewel Brown in her address of the reference to President Harding in her peroration which, in the original was as follows:

"May heaven bless the courageous, forward-looking women who have given us their very lives to this great cause. Bless our President, who, in coming here today to offer his greetings in person to our shrine of better, fuller womanhood, has presented his greetings and encouragement to all women, from Alaska to Panama, whose hearts beat in sympathy with the cause of equality. In closing this corner stone with its wealth of greetings, hopes and prayers, I pray that heaven may bless our headquarters and the cause to which it is dedicated."

Long Parade to Scene.

Long before the first banner bearer in the long processional pageant of 300 women representing the state delegations, the various political parties, professional groups, and organizations, including the pioneer suffragists, American war mothers, the army nurse

corps, the Clara Barton memorial, and other groups, came into view, more than 50,000 people were gathered before the headquarters.

The street in front of the historic old mansion, which 100 years ago served as the capitol while the capitol burned by the British was being rebuilt, was roped off and seats placed for several hundred invited guests, space left for the line of marching women, and more seats placed along the sidewalk, on the other side of the street, the crowd overflowing into the capitol grounds opposite and for several blocks to the right and left. The amplifier carried the words of the speakers to people far away.

Foreign Dignitaries Present.

Seated on the terrace before the house were the representatives of forty foreign countries, including several members of the diplomatic corps.

The Marine band was stationed on the sidewalk in front of the house, and its bugles sounded the call when the purple, white, and gold banner was formally raised.

In the corner stone at its base were deposited the greetings of the house of representatives, the senate of the United States, of thirty state governors, and of foreign countries. Representative Fess (Ohio) speaking for the house, and Senators Caraway (Ark.) and Curtis (Kas.) speaking for and placing in the corner stone the greetings of the senate.

EVANSTON GIRL WINS HONOR AT EASTERN SCHOOL

Word received here yesterday told of selection of Miss Mabel Quinn Jackson, daughter of Mr. and Mrs. Willis M. Jackson, 914 Judson avenue, Evanston, to be "queen" of the annual spring festivities of the Ogontz school at Philadelphia. The honor is conferred by popular vote of the entire student body. Miss Quinn is a member of the senior class and captain of the hockey team.

WARN GERM TO STOP CY YANK TOL

Tribune Expose

BY GEORGE S.

(Chicago Tribune Foreign Correspondent)
BERLIN, May 21.—Representatives of several nations have informed the German government that the head tax, a tax, double and tripling the national, and other extortionate measures are not only a violation of the Versailles treaty, but also a violation of the principles of the League of Nations. The National Gazette says: "A protest telegram, brought to the attention of the American government, is a telegram of inquiry to the American government. There is great excitement over the fleeing of American, especially in Bavaria, that it is a bad policy to leave while the German asking for an American credit."

BY GEORGE SELDES.

(Chicago Tribune Foreign News Service.)
BERLIN, May 21.—Diplomatic representatives of several foreign nations have informed the German government that the head tax, additional visa tax, double and tripling prices for their nationals, and other extortionate methods coincident with the opening of the tourist season are not acceptable to their governments, that they probably violate the Versailles treaty, and that action may be expected unless relief is given.

The National Gazette this morning says: "A protest telegram from an American correspondent, sharply worded, brought the question up, resulting in a telegram of inquiry from Washington to the American consulate. There is great excitement in America over the fleeing of Americans in Germany, especially in Bavaria."

"In American circles the viewpoint is that it is a bad policy to fleece Americans while the German government is asking for an American loan and credits."

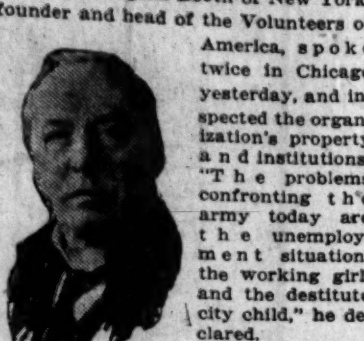

Tribune Brings Action.
Among the other results of The Tribune's exposure, which has aroused thousands of tourists in Europe, are the following:

The Prussian foreign minister was forced to answer an interpolation in the reichstag regarding the head tax on Americans of one dollar daily.

A Bavarian semi-official statement declared that Bavaria, according to the Versailles treaty of 1919 maintains the right to con-

SIX MILLION MEN NEED JOBS IN U.S., SAYS GEN. BOOTH

Gen. Ballington Booth of New York, founder and head of the Volunteers of America, spoke twice in Chicago yesterday, and inspected the organization's property and institutions.

GEN. BALLINGTON BOOTH.

"The problems confronting the army today are the unemployment situation, the working girl, and the destitute city child," he declared.

"Six million people out of work in America have a deplorable lack of readjustment in our period of reconstruction. Something must be done immediately to help these men to get work, as some one is dependent on each of them."

"With the increasing population of our cities, the needs of thousands of young women, who have known home comforts and the freedom from financial anxiety, are ignored. We forget that these girls must secure suitable positions." Gen. Booth will return to New York tonight.

duct its own affairs without interference from Berlin.

It was announced in Berlin that the government has reopened the question with Bavaria regarding the amelioration of Bavarian visa requirements.

An excited press conference took place in the foreign office today.

Admit Treaty Violation.
In the press conference, the majority of editors defended The Tribune's viewpoint, and unanimously declared that it will hurt Germany's reputation abroad when 300,000 tourists this summer report unfavorably on account of the extortions. The government of officials who conducted the press con-

ference practically declared the government is unable to force the individual states to abandon the idea or to punish shopkeepers. It is especially important in dealing with Bavaria. Minister Severing, answering the interpolation regarding the dollar head tax daily, said: "The government is considering some methods against foreigners which would not violate the Versailles treaty." This is practically an admission that the present Bavarian tactics are a violation of the treaty.

"Rents Broken," Slogan in Parade of Tenants

Members of Austin branch of the Tenants' league of Chicago, 21 North La Salle street, voiced their opinion of the housing situation in a parade yesterday with banners bearing the statements, "Rents are broken now, stand pat," and "The rent hog is on the run."

Other tenants in the Twenty-seventh and the Twenty-second wards held mass meetings, at which Representative Bernard J. Conlon, Ald. John H. Lyle, Dr. G. E. Wyneken, and M. S. Walsh, secretary of the league, spoke.

Health Officer Flogged by Alabama Masked Mob

Birmingham, Ala., May 21.—Dr. J. D. Dowling, health officer for Birmingham and Jefferson county, and special representative of the United States public health service, was lured from his home Wednesday night, taken twelve miles into the country, and flogged, it has become known. His abductors told him, Dr. Dowling reported, that his methods were too "kaiser-like" and warned him to leave the community within thirty days.

Detroit, Mich., May 21.—The first two power boats of the "prohibition navy," which is to operate in Detroit river, last night took up the search for rum runners. The boats are capable of a speed of between forty and fifty miles. Three more patrols are to be placed in the service before June 1, according to prohibition officials. The federal prohibition department at Washington has been asked by James B. Davis, Michigan director, to arrange for the manning of each patrol with two special agents, a Canadian and a United States customs inspector, and two patrolmen.

Get the hidden values that mean service and safety when you buy your car

You can buy a cheaper motor car than an Apperson-Beverly model.

You can buy a car which follows more closely the passing whims of custom body builders.

But you cannot buy a motor car which will meet your personal needs more adequately or more economically than an Apperson.

Actually it is a low-price car—when its moderate first cost is spread over the many years of satisfying service it will give you.

A car of dignity and distinction, the Apperson is simple, swift, safe, enduring. Every part that goes into the chassis is designed and manufactured in the Apperson plant at Kokomo.

Any woman can drive an Apperson—and enjoy it. Ease of handling—instant motor response—the torrent of power at command—freedom from

fatiguing vibration and road shocks—all make for confidence as well as exhilaration in any driver.

For six years Apperson engineers and production experts have concentrated on the refining and perfecting of a great motor car—"the eight with eighty less parts." The Beverly model marks the culmination of their efforts. In January, at Beverly Hills, California, a standard chassis, stripped for racing, traveled 1,928 miles in 24 hours.

Apperson owners will never need to drive eighty miles an hour from sun to sun. But the power and endurance demonstrated at Beverly Hills are important because they assure personal safety under all conditions, speed for any emergency, operating economy, long life and low upkeep cost.

Seven distinctive body types. Prices range from \$2620 to \$3695 at Kokomo, Ind. Excise tax extra.

RELIGIOUS WAR IN BELFAST TAKES 13 LIVES IN DAY

BELFAST, May 21.—[By the Associated Press.]—This has been one of the worst week ends in the experience of the city. Shootings, incendiaries, bombing and outrages generally have been exceptionally numerous. The fire brigade responded to seven calls between Saturday evening and Sunday morning. In some cases, bombs were thrown into buildings.

The exact number of deaths is not known, but it is believed they will reach thirteen, bringing the total deaths by shooting during the past week up to thirty-five, in addition to many persons treated for gunshot wounds in hospitals.

Cheer Captors of Sniper.
Belfast is suffering from intense nervous tension. At one point police placed on duty to protect the firemen were attacked by gunmen, and several casualties resulted. One sniper captured by the military was marched along the streets hands up to the barracks, a crowd following and cheering the soldiers.

Raiders shot and severely wounded the mother of a special constable at Monaghan because she refused to allow them to search her home.

Shoot Two Women.
Two men called at the home of a family named Shields last night and asked Mrs. Shields for her son. When told he was out, the men shot the woman and her married daughter. A sailor named Powell, who had just arrived in Belfast after a long voyage was interrogated as to his religion and then was fired upon and wounded. It is feared fatally.

WILL HOLD AN INQUEST TODAY INTO SHOOTING OF E. L. THORNTON

An inquest into the death of Edward L. Thornton, millionaire lumberman, who died early yesterday morning as a result of an accidental shooting himself with a rifle in his home, 2244 Lincoln Park West, last Tuesday, will be held at the Grant hospital at 10 a. m. today.

Funeral arrangements include services at the Grace Land cemetery chapel at 1 p. m. tomorrow, conducted by Rev. Norman Hutson of St. Chrysostom's Episcopal church.

Honorary pallbearers are: Chauncey W. Martin, Charles F. Loesch, Dr. George H. Simmons, Dr. G. Frank Lydston, Samuel H. Fullerton, George T. Mickle, George J. Pope, L. L. Lane, Frederick L. Brown, Walter B. Vandlingham, Bert E. Cook, Henry J. Schlacks, Lewis B. Shaw, Lynn Storey, John F. Hagey, Henry A. Haugan, William H. Powell, Frank J. Burns, Harry L. Street, Sidney C. Memphis, Tenn., May 21.—The appointment of Mrs. Thornton L. Brown of Joplin, Mo., as national organizer of Democratic women's clubs was announced last night by Mrs. Emily Newell Blair, committee woman of the Democratic national convention.

HOOVER ISSUES CALL FOR A CURB ON COAL PRICES

Washington, D. C., May 21.—Administration plans for holding down soft coal prices were carried a step further today when Secretary Hoover issued a general call for a conference of all the 1,500 odd operators whose mines are still producing. The conference is to be held in Washington May 21. The operators will be asked to put into effect the scheme of creating district committees to receive and allocate all orders during the duration of the strike, and with cooperation from a Washington committee to prevent coal going into hands of speculators and middlemen, who may unduly enhance prices.

Fifty operators controlling the bulk of present nonunion and open shop

production last week pledged themselves to support the plan, using the Garfield prices of the war time fuel administration as a general basis from which to set up fair price standards. This would establish mine prices of bituminous in a range of from \$2 to \$3 per ton.

"In the meantime, the administration expects the coal operators not to sell coal at prices in excess of the Garfield prices with such adjustments as are necessary," Mr. Hoover's statement on the general conference call said. "Furthermore, charges by wholesalers or retailers of larger commissions than allowed under the Garfield scale, or the resale of coal for speculative purposes is not fair to the public and the government would like to hear from consumers who have been subjected to higher prices than this basis warrants."

April Automobile Output Heaviest in 11 Months

Washington, D. C., May 21.—Production of passenger automobiles in April amounted to 196,521, an increase of 30 per cent over production in March, according to a report issued today by the department of commerce. Truck production totalled 21,944 machines, compared with 19,499 in March. In both classes the output was highest for any one of the preceding ten months.

Strange Antics of Motor Boat Imperil Six Lives

Sistersville, W. Va., May 21.—Six men were thrown into the Ohio river here today and then menaced by serious injury when a motor boat, during a trial trip, lurched into sudden high speed, emptied itself of occupants, crashed into another craft containing two passengers cutting it into two parts and then dashed madly into a series of increasing circles until it rammed its nose in the mud. The boat was equipped with an airplane motor.

NEW CITIZENSHIP BILL TO PROVE AID TO ALIENS

(BY A STAFF CORRESPONDENT.)

Washington, D. C., May 21.—(Special.)—The administration's naturalization bill, providing for the registration and education of immigrants, is pronounced the most important step toward Americanization of aliens ever taken, in a letter Secretary of Labor Davis, chief sponsor of the proposed legislation, has addressed to Senator Shortridge (Cal.), who introduced the measure in the senate.

The provisions of the bill and the results it is expected to accomplish are thus summarized by the secretary:

"1. A required standard of education

for citizenship.
"2. Ability to use and understand a common language, making it possible for every citizen to communicate with others, understand his work and the regulations made for his protection in industry, increase his opportunities for entertainment, and add greatly to his ability to use and enjoy the full advantages of residence in America.

"3. Facilities for the naturalization process, eliminating the necessity for furnishing witnesses who have known the alien for five full years. It is estimated that this will save to aliens becoming naturalized between \$3,500,000 and \$7,000,000 each year.

"4. Protection against destitution for himself and family should he become permanently disabled, and for his family should he die and leave dependents unable to care for themselves.

"5. Machinery to accomplish the purposes of the act through enrollment and the payment of a small annual fee.

Mr. Davis says he sees in the pro-

posed legislation only benefit for the alien.

Hard for Undesirables.

"As I view it," he continues, "the legislation under consideration makes it possible for the alien to become not only a good citizen when he has the right to be a citizen at all, but one fully understanding America and what it stands for, at the same time making it hard, and justly so, for undesirables to get their papers. What opposition has been manifested comes from just two sources. First, the red or anarchistic element, and, second, the misinformed as to the purposes and intent of the legislation contemplated. Statements have been made in the foreign language press in an effort to stir up opposition which are exactly contrary to the real facts as to what will occur under the administration of the law."

English to Be Taught All.

The bill, says the secretary, presents essentially a program for citizenship training.

"The desire," he says, "is first to teach English so that we will be a

nation with a common language; every citizen standing upon an equal basis with every other in ability to understand all matters of general interest and to communicate with one another upon the many subjects which arise in the daily life of every man, woman, and child in the country. No one cause of dissension and international strife in the countries of the old world has proved more efficient than misunderstanding. These misunderstandings have bred the jealousies and hate which we find everywhere and which have given rise to battles and wars of more or less serious consequences throughout all ages.

Not Foe of Foreign Languages.

"I would not in any way restrict the use of foreign languages. To do so would be like taking from the alien one of his best friends. He has his native language and song; the language of his mother, and all remembrances of his mother should be sacred."

The secretary cites the ten following nationalities having the highest percentages of naturalization: Wales, 74.4; Germany, 73.6; Luxem-

burg, 73.4; Denmark, 70.5; Sweden, 70.0; Norway, 68.2; Ireland, 66.1; England, 64.4; Scotland, 49.3; Canada (other than French), 67.1; and compares them with the following five lowest: Mexico, 5.5; Albania, 7.3; Spain, 10.7; Bulgaria, 11.7; Greece, 17.4.

1,200,000 Catholics

'Hear Charity Appeal

An appeal for the Associated Catholic Charities was made in 294 parish churches of the Chicago archdiocese yesterday, reaching approximately 1,200,000 persons, preparatory for Pentecost day, when funds to carry on charitable work will be collected.

It is estimated 1,000,000 is needed for service in homes where poverty has followed unemployment and to support wholly or in part the thirty-five institutions within the scope of the associated charities.

DIES ON STREET CORNER.

CANCER PROVED HEREDITARY BY CHICAGO WOMAN

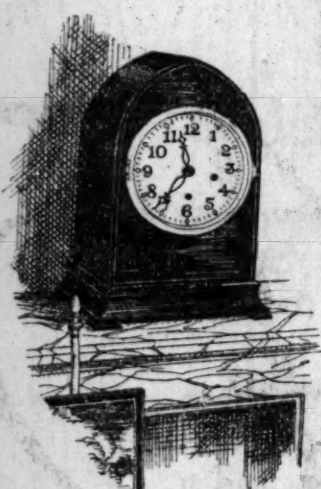

St. Louis, Mo., May 21.—Definite

proof that cancer is transmitted from generation to generation of mice and the theory that the same conclusion applies to mankind were presented here today at the closing session of the meeting of the Radiological Society of North America by Dr. U. D. Slye, basing her contentions on twelve years' research at the University of Chicago.

In thousands of cases, taken under observation, Dr. Slye said her conclusions have been substantiated in experimenting with mice. Her research work, Dr. Slye asserted, showed that whenever a mouse, afflicted with cancer was bred to one of a non-cancerous strain, the disease did not make its appearance till the second generation. Similar condition existed in the human race, she added.

SOCIALISTS PLAN GIANT DRIVE TO TAKE CONGRESS

New York, May 21.—The Socialist party will enter candidates for congress in every district this fall and will conduct a vigorous campaign in the western, southern, and eastern states, the national executive committee announced after a meeting today. A congressional platform will be made public later, it was announced.

It was stated that the decision was made on the strength of reports which indicated "a widespread Socialist sentiment and discontent, as well as indignation among the masses of the workers over the failure of the Democratic and Republican parties to deal effectively with the unemployment

problem, the wave of wage reductions, and shortage of homes."

The list of forty campaign volunteers includes Mayor Daniel W. Hoan of Milwaukee; James H. Maurer, president of the Pennsylvania State Federation of Labor; Representative Meyer London, New York; Seymour Stedman, Chicago; Judge Jacob Panken, Morris Hillquit, Harriet Stanton Blatch, Algonon Lee, all of New York, and Mrs. Mary Berger of Milwaukee.

Morris Hillquit, Victor L. Berger, and Algonon Lee were elected delegates to the international Socialist conference to be held in Europe in July or August, probably at The Hague.

SERVICES FOR PASTOR.

Recognition services for the Rev. F. E. Stillwell, who was recently called to the pastorate of the Community Congregational church, Ferdinand street and Laramie avenue, will be held Tuesday. The business session will be held at 8 o'clock, followed by a dinner at 8:30.

HOLD TAG DAY ON RHINE TO SEND HOME EX-YANKS

COBLENZ, May 21.—A "tag day" on the American plan has been set for June 2, authorization having been given by the headquarters of the American army of occupation, for the raising of funds to send home 200 former soldiers of the American army who are stranded with their families in Germany and the Rhineland.

The army will carry them on transports from Antwerp to the United States, but the payment of their railroad fare, food and other expenses is being undertaken by the Rhineland post, No. 700, Veterans of Foreign Wars. This organization has arranged the tag day plans.

"EDUCATION RELIGION OF DEMOCRACY"

BY THE REV. W.

Des Moines, Ia., Mo.

A plea for the support of institutions of learning as basic factors in the education and success of the nation by Vice President Hughes before the Progressive assembly.

"EDUCATION AND RELIGION BASES OF DEMOCRACY"

BY THE REV. W. B. NORTON.

Des Moines, Ia., May 21.—[Special.]—A plea for the support of higher institutions of learning and of religion as basic factors in America's preservation and success was made this evening by Vice President Calvin S. Coolidge before the Presbyterian general assembly.

"Our higher institutions of learning," he said, "are not the apex of our system of education. They are its base. All the people look up to their influence and their inspiration. They must be under the guidance of

men of piety and men of an open mind. They must continue their indispensable service to the cause of freedom by bringing all the people unto a knowledge of the truth.

"There must be an increasing reliance upon religion. It is the source of all faith. It is the evidence of the eternal purpose, and of the true power, the true nobility, of mankind. It gives a divine sanction to the authority of righteous government, to faithful service through economic relations, and to the peaceful covenants of international understanding. It represents the only hope of the world, the only motive by which mankind can bear the burdens of civilization."

Nations Perish, Civilization Lives.

The survival of civilization, the Vice President declared, is not the chief concern of mankind. "It will go forward. It is an established fact. It is the great reality," he said. "The question which concerns the thought of the world is whether we shall endure. Whether we shall carry forward civilization. Education is for

the purpose of teaching men to know their true condition, to understand what freedom is and at what price it must be bought, and to comprehend the meaning of civilization.

"The peculiar meaning of America is faith, faith in the first place in an international power, faith in the second place in mankind. There are those who doubt the stability of republican institutions. There are those who question the ability of a people long to maintain a democracy. The progress of the race does not lie merely in the intelligence, philosophy, or the art of a few, but in their possession by the many, in their general acceptance.

Liberty's Foundation in Religion.

"America lays no claim to the discovery of the theory of freedom of self-government. Its glory lies in the ability of its people to put those theories into practice, not merely the power to state them but the capacity to live up to them.

"The inalienable right of man to life and liberty and to be protected in the enjoyment of the rewards of his own

industry have their source in religion. The rights of man as man, the dignity of the individual, find their justification in that source alone. Whenever its teachings were fully admitted, the rest followed as a matter of course. It was religion that came first; then the establishment of free government.

"With these there came the opportunity for a general education, for a broader service by the institutions of higher learning, which ushered in the age of science, resulting in the great material prosperity. These were the institutions which Americans built up and supported out of their faith in an eternal purpose and out of their faith in mankind."

METHODISTS OF SOUTH ORDAIN 5 NEW BISHOPS

Hot Springs, Ark., May 21.—[By the Associated Press.]—The Methodist Episcopal Church, South, through the general conference, today ordained five new bishops and bowed in reverent memory of five bishops who died during the last four years. Using the ancient Anglican ritual, the college of bishops, led by Bishop Warren A. Candler of Atlanta, Ga., senior member, performed the ceremonies by which James E. Dickey, Griffin, Ga.; W. B. Beauchamp, Nashville, Tenn.; Sam R. Hay, Houston, Tex.; Hoyt M. Dobbs, Anniston, Ala.; and Hiram A. Boaz, Dallas, Tex., were ordained. With the exception of Bishop Dickey, all the new bishops have been assigned stations in the foreign missionary field.

RADIO SECRECY IS ASSURED BY NEW INVENTION

BY CHARLES SLOAN.

John Hays Hammond, whose radio-controlled yacht caused a sensation several years ago, announces a new invention which practically will revolutionize the radio communication. He has perfected secrecy in messages.

The new apparatus, technical details of which are for the present withheld, allows transmission simultaneously of scores of messages on the same wave length, while reception will be accomplished only by receivers attuned magnetically to each of the various transmitters.

Practically it works this way: If all the broadcasting stations in the country were located in Chicago, and all equipped with the Hammond apparatus were broadcasting concerts on a 360 meter wave, your Hammond receiver would take but the one con-

cert for which it is attuned and automatically would suppress the carrier waves of the other stations. Atmospheric and static interferences also have been eliminated by the new device to the point where messages can be received by it under conditions which would render them unintelligible in the ordinary set.

Broadcasting in the future, through the Hammond device, thus may become commercialized. We may be subscribing five or ten years from now to a broadcasting service or services which will give certain specified programs at certain hours—programs which may only be received through apparatus leased to the subscriber by the broadcasting company.

Spark stations located near the Hammond receivers do not cause interference it is said, yet tuning in on the new device is so selective that both code and voice messages can be sent simultaneously on a very slight variation of the same wave length without interfering with one another. Details will be made public when application is made to the patent office for patent rights.

Wilbur Williams, who has been in Europe in the interests of the U. C. Hermann radio show in the Coliseum in October, sailed for America yesterday on the steamer France after securing a promise from Senators C. Marconi that he would be present at the event.

South Bend, Ind., has a new broadcasting station—"W.B.A.Q."—operated by Myron L. Harmon, at the South Bend Y. M. C. A.

For the benefit of many inquirers patent numbers 836,531, 833,263, 1,104,065, 1,104,073, 1,118,228, 877,451,

904,222, 1,219,250 and 1,127,921, cover the manufacture of crystal detectors and sets. These patents have been assigned to the Radio Corporation of America by the Wireless Specialty company of New York. Details can be obtained from the government patent office at Washington or may be looked up at the Chicago public library.

VOGUE

WHY are the manners of American children regarded with such horror by the well-bred Continental visitor? And what is to be done about it? What has the modern world devised to replace the summary and peace-bringing edict of our grandparents that children should be seen but not heard? The question of the training of children in consideration, courtesy and charm is discussed in this current Summer Fashions Number of Vogue—an article that every American woman will find worth attentive reading and sober reflection.

The

World

NEW YORK

is merchandising its columns very much as any manufacturer might seek an outlet for his product. Day by day THE WORLD talks to its readers about advertising in a simple, understandable fashion. These advertisements make its pages more valuable by awakening public interest in the advertising that appears in THE WORLD'S columns.

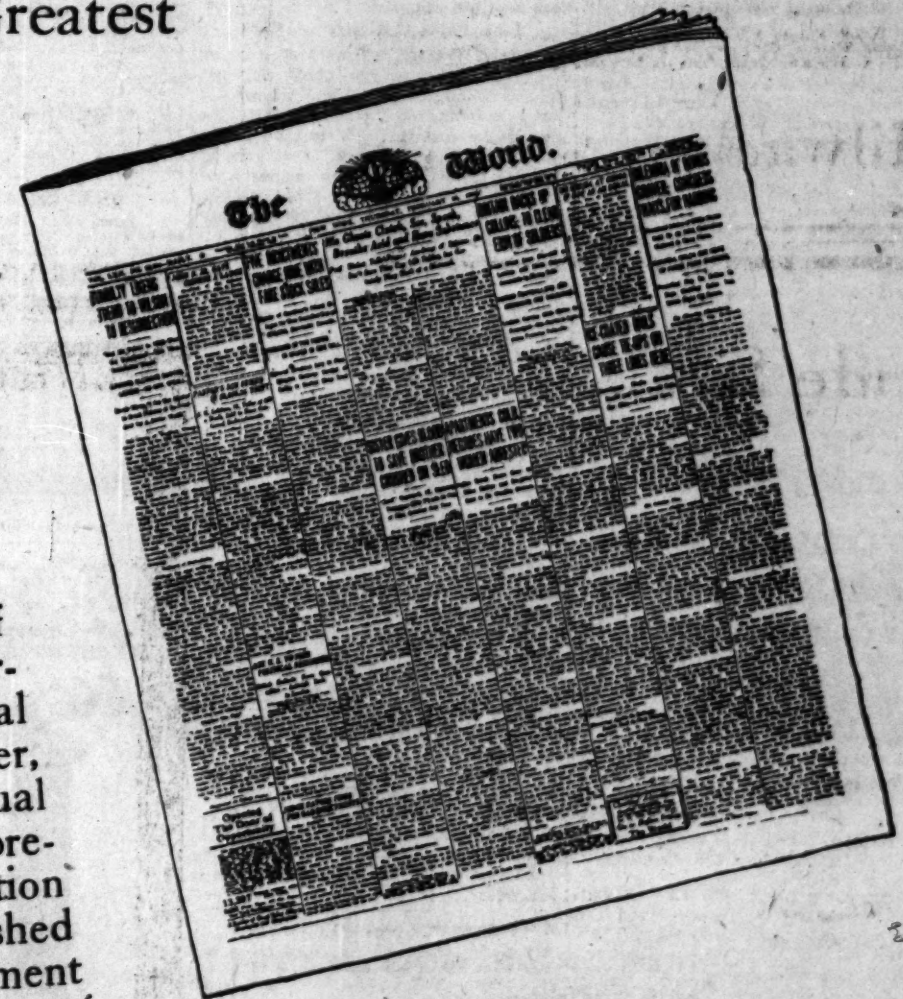

1 Here is an instance of a great newspaper's real helpfulness to the merchant and manufacturer seriously endeavoring to re-establish normal conditions. At a time when thrift was the national watchword, THE WORLD counselled thrift, and lent the full power of its opinion to the principle of individual economy. Later, it encouraged both merchant and manufacturer in their efforts to stimulate the buying impulse by pointing out the economies made possible by writing down inventories and inviting larger turnovers. The dawn of the era of re-adjustment found a vast body of WORLD readers not only in accord with the newer order of things, but with ample means to take advantage of the opportunities offered.

2 It is one thing to preach economy, another to practise it. By pointing out to the National Advertiser the marked saving possible through the combination rate available for use in the Daily and Sunday WORLD and THE EVENING WORLD, a way was indicated for the economical invasion of America's Greatest

Retail Market. The response to this was an immediate recognition of the pre-eminence of THE WORLD and THE EVENING WORLD in building distribution in this vast area of retail sales. During the first four months of 1922 these two newspapers gained more than 400,000 lines in National Advertising—an increase of 46% for THE WORLD, Daily and Sunday, and of 50% for THE EVENING WORLD.

3 Close upon the heels of this ready acceptance of THE WORLD as one of the country's most powerful factors in National Advertising came a general recognition of its value to the Financial Advertiser, in that it reached not only an audience of unusual scope in numbers, but that this audience is representative of a very definite capacity for the absorption of tested securities. THE WORLD is to-day a firmly established value in any campaign for the distribution of high-grade investment issues, and is recognized as such by the leading banking houses of the country.

4 THE WORLD'S efforts to clear the financial atmosphere by eliminating those houses responsible for marketing unseasoned and highly speculative issues received the official indorsement of the foremost banking organization of America. Its campaign for honest financial advertising has been followed by one of the healthiest re-awakenings of public interest in the security markets registered in the country's financial history.

The World, as established by JOSEPH PULITZER, May 10, 1883:

"An institution that should always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent, never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty."

What the Robins did to the Cubs yesterday was a plenty. The Brooklyn team clouted three Bruin hurlers for an 8 to 4 victory, and the beating was most decisive and discomfited the aid of the customary Sunday dixie. Eighteen hits the Robins collected were all solid blows. Some 17, 000 fans turned out.

To start with the Robins collected fifteen of their hits and the Sox were in trouble, due to an error by Ray Grimes. Two other errors were chalked up against the Cubs, one by Stutz and one by Hollock.

Eight hits were all the Bruins could muster off Dutch Rueher, who was one of the heroes of the world's series of 1919, when he played with Cincinnati. Five came after the Robins had the contest ticked away, and Rueher had eased up.

Both teams produced a run in the first inning, Brooklyn scoring on singles by Griffith, Wheat, and Myers, Griffith crossing the plate. Stutz's double, Hollock's sacrifice, and an error by Johnston gave the Bruins their run, Stutz scoring.

The visitors took the lead in the second when Olson singled, Miller sacrificed, and Rueher scored Olson with a double, but the Cubs evaded the count in the third.

Robinson's crew took the offensive again in the fourth. Rueher singled and took third on High's rap to right. Then Johnston lofted one to Stutz, but Arnold dropped the pill and Rueher counted.

Yank Aldridge in Seventh. The distressing seven, in which nine Brooklyn men batted and five runs were scored, opened with High singling to center. Johnston sacrificed and Griffith singled High to third. Singles by Wheat, Myers, and Schmidt then counted High, Griffith, and Wheat, and Olson's double tallied Myers. That ended Aldridge.

The Bruins' eighth two runs in the seventh when Hollock singled and counted on Keller's double. Grimes was safe on Johnston's wild throw to first, and Keller counted.

Shovel Hodge Indifferent. Courtney's troubles in the first were due to a pass to Smith and a single by Judge. The second started inauspiciously when Johnston booted Goebel's grounder, after which Shanks walked. Then things began to happen. Goebel doubled and Peckinpah singled. Zachary did his bit with a sacrifice fly. Smith singled and so did Rice. Four runs were amassed by this attack.

Starting with the third Shovel Hodge was on the slab. His work was indifferent. A pass to Peck and hits by Zachary and Harris added one run to Washington's prestige in the fourth. Then things were quiet until the seventh when three hits and an error added two more tallies to the opposition's total. From then on nothing mattered except to Gleason and he is blameless.

WE HAVE GOOD CHANCE TO COP BIG TEN TITLE

Its decisive victory over last Saturday, 7 to 1, Illinois is now in a commanding position to win the western conference baseball championship.

Last year's champion will complete its schedule this week with games against Purdue and Ohio State. The Boilermakers, who are leading in the percentage table, will be met tomorrow at Urbana, while the St. John's Buckeyes to the same place at game on Friday.

Purdue and Ohio games will be played at the same time. The game with Iowa on the field recently was stopped by the third inning and will not be off. If Illinois can win the two games, it is almost certain the title will remain in Chicago.

The star Illinois pitcher, who has been the rest of the season, is in the rest of the season.

The clash with Illinois will journey to Iowa City on Friday. On June 1, the Boilermakers will meet Chicago.

Illinois is third in the standard Big Ten games to play. The series will cross bats with today and then move on to Chicago for two games on Saturday and Sunday.

The Maroons on Saturday will journey to Ann Arbor to meet the Wolverines on May 22. The game will be met on the final conference game of the season.

Illinois has but three Big Ten games remaining on its schedule. The series will be met at Madison, Wis., on May 23, and then to Michigan on May 25. The game will be met on Camp Randall.

DEMPSEY HERE, SAYS NO SCRAPS TILL LABOR DAY

BRENNAN ON LABOR DAY?

Floyd Fitzsimmons, who will contest the ten round bout between Dempsey and Rocky Marciano at Michigan City on July 4, said to the champion over long distance telephone from Benton Harbor. Later he asserted Dempsey had given him a promise to box Bill Brennan in Michigan City Labor Day. The champion is understood to be willing to go through with this match, providing Manager Jack Kearns gives his consent.

BY WALTER ECKERSALL

(Picture on back page.)

Dempsey is engaged to a woman, and asserting he will not defend his title until Labor day, at the earliest, Jack Dempsey, kingpin of the heavyweight boxers, passed through Chicago yesterday on his way to Los Angeles to tell his home folks all about his experiences in Europe.

The champion frankly admitted he put one over on the scribes in the east. They had been told that he was coming to fight a woman, so Teddy Hayes, the fighter's secretary, faked a name and a remote address with the result it became a matter of nationwide comment for one day that Jack was to wed a Miss Edith Jackson of Boulder, Colo.

Dempsey Regrets Isolation.

Dempsey will rest for about two weeks on the coast. He then will start a tour which will include a fight in three months. Jack asserted he cannot possibly fight until Labor day and if his opponent is a tough foe, the champion may postpone the date until July in order to get into the best physical condition.

All the time that Dempsey was talking about the fight situation, there was a tone of disappointment in his address. He rather would fight than appear before the footlights and reveal there are not more good men in his division. He will fight any of the heavyweights, providing the inducements are satisfactory, but apparently the contenders would be an unprofitable venture.

Dempsey Deal with Willis.

Dempsey did not display his monochrome. He had it tucked away in his vest and said he bought it to kid his boys in the cage. He said he was proud to show his three dogs which he brought from the other side. He has two English bull terriers and one German pointer. The latter, given to him by a friend in Berlin, is said to have been the best trained for police service in the German capital.

According to the champion, articles have been signed for a match with Georges Carpentier to take place in England some time before June 1923. Jack declared there is absolutely no truth to the reports he will meet Harry Wills in Montreal. He asserted a few promoters are looking for some publicity, and wants the public to know there is not a possible chance of the fight taking place in the Dominion.

Willing to Meet Willis.

"I would like to box in the middle of the ring for a year," the champion said. "I appreciate the fact the arena is not big enough to hold large crowds, but I think we could get under and arrange the financial end to the satisfaction of all concerned."

"I am willing to meet any man they want to sign. The name is true of Willis, Fred Fulton, Bill Tate, Bill Brennan, Harry Grob, Tom Gilson, or any of the other so-called contenders. It is not up to me. It is up to the promoters to make the matches. They will have to raise any money they are prepared to do business."

Desires Parisian Life.

The champion was not greatly impressed with Europe, although he had a fine trip. "They treated me fine," the champion said, but their mode of living is entirely different. In Paris, the barbers even quit working when he is served in the afternoon. The people stay up all night and sleep all day. They are much slower to do things than we are accustomed to in this country."

Manager Jack Kearns will remain in the east for a spell, to close some business affairs and consider any offers which might be made. The champion and Secretary Teddy Hayes left last night for Los Angeles.

RAINY SEASON DOUBLES POULTRYMEN'S TROUBLES.

Unhealthy chicks are common this season because the cloudy, cold and rainy spring has made it impossible for the hen and her brood to range in the open. The ordinary feeding schedule and care of the chicks should not be followed when the brood cannot be kept outdoors on the ground for at least several hours during the day.

BOOTH CAPTURES NET AND GROSS IN GOLF DERBY

BY JOE DAVIS.

Charles W. Booth, a veteran member of the home club, won the annual golf derby at the Midlothian Country club, shooting skillfully enough to lead in both gross and net counts. His card was 162-13-150, made up of duplicate rounds of 11, over a somewhat slow track.

Second place went to H. S. Backus of Evanston, who registered 184-46-152. Two strokes behind him were W. W. Harless of Midlothian, 184-50-154. C. A. Frary of Edgewater, 210-56-154, and William W. Harless of South Shore, secretary of the Western Golf association, 188-54-154. This was close handicapping.

Two visiting players, George Hendricks of Philadelphia and George Johnson of Springfield, Ill., tied for next place with 187. The annual event was a great success, the field numbering 140. There were no overnight scratches.

Edgewood Golfers Out.

More than 100 players took advantage of the opening of the Edgewood forest preserve course yesterday. Formal competition in the afternoon was preceded by the presentation of the world's largest golf trophy by William Zelosky. The cup measures forty-eight inches in height and will hold a bushel of wheat.

Andrew Ross, president of the club, received the trophy on behalf of his organization. Others present were Vice President C. J. Callan, George A. Miller of Oak Park, chairman of the golf committee of the county board, and Commissioner Emmet Whelan.

J. J. Rink, with 77-10-87, led the field in the qualifying round for the J. Oliver Johnson trophy, and also registered the first low score on the big new prize.

\$15,000 for Glencoe Course.

At the last meeting of the public service committee of the county board an appropriation of \$15,000 was made for improvements on the new Glencoe community golf course, which has been built on forest preserve property. Most of this money will be spent in remodeling a building which is used as a shelter, and installing a water system for the course. The committee has asked for estimates on the construction of the new course at Roosevelt road and the Des Plaines river.

S. S. Lelover won the ball sweepstakes with 89-17-73. S. Livingston being second with 102-28-74.

The Glencoe Country club, which opened its competitive season on Saturday with the qualifying round for the President's cup, has a long schedule of events ahead. Among the fixed trophy events are the Whiting cup, for which play will start June 24; the club championship, starting July 23; the Thomas cup, starting Aug. 19. Play for the 2nd W. C. C. cup will start July 1 and continue through July and August.

The first issue of the Beverly Country Club News appeared last week. The Beverly slogan this year is "Use Your Club as Well as Your Clubs." Editor Harvey Cory reports on good authority that the Glencoe course is planned to have the course in the snuggest sort of knickers.

The Woman He Forgot

By ELIZABETH YORK MILLER

SYNOPSIS.
Nora Clayton, beautiful and young, although the mother of a nineteen year old son, returns to England after an exile of seventeen years when she learns that her son is married. She was married when extremely young to Lucien, whom she loved passionately, although he was blind. Lucien was tricked by Lady Helen, who loved him and who was the daughter of a wealthy man, into believing that she was his wife. She was married to him for two years and then he died. She was then married to a man who was a railway accident and she was left a widow. She was then married to a man who was a railway accident and she was left a widow. She was then married to a man who was a railway accident and she was left a widow.

INSTALLMENT XLIII.
"WHERE IS BILL?"
Margery sniffed sentimentally. "There's nothing in the legal line that could ever have made me feel free. I swore before God to take you for my wedded wife, and so you're always been. I'm not a saint, by Jove, but I can't run after women, the same as you might not be in the same position. Somehow, I've managed to worry along without women, and a damn sight more comfortable, too, if only a chap can look at it that way. But, free? No, I've never considered myself that. You seem just as much my wife as ever you did, and that's why I look the high wind with you. A chap's got to be master in his own house, whether or no—and I can always handle you on the money question."

"Well, then—there's defects in all characters," Margery said charitably. "So the love letter which should have led to their reunion was never sent to Bill, and a few days later Helen had an unpleasant experience which was calculated to bring him forcibly to mind. Summer was approaching and the London season would soon be at an end. When her present engagement at the Elysium Palace finished, she meant to take a holiday. On this particular day she had dashed off after the matinee to a shop in Oxford street to make a few purchases. Five o'clock found her in the big glass covered tearoom on the roof. She sat with her back to the next table, where a bevy of schoolgirls were refreshing themselves with ice cream sodas and other decoctions. She did not know them—least did not recognize any of their voices—but they appeared to know all about her and Marion Flute and Bill, as well. "It's a great pity Bill Clayton won't join the tennis club this year," said one. "O, that's because of Marion."

"Where is Bill?" "Everybody knows they're in love with each other. Why in earth don't they get engaged?" a third speaker demanded. The girl who had opened the topic lowered her voice to a stage whisper. "Marion told me. Bill hasn't asked her." "O-o-o! I suppose Lady Helen Margery still has some string on him." "That old woman?" "She is old!" "Why, she's thirty-five if she's a minute." Helen shivered and drew down her veil. It was a hot day, but she suddenly felt cold. "Have you seen her at the Elysium?" one of them asked. "All had seen her and two were rather critical. "If there's anything in the line of a young woman giving an imitation of a little girl. It looks so silly and horrid." "And she looks pretty awful in that yellow wig. Now, I must admit she does look beautiful. Her hair helps her, I daresay. But as 'Baby Doll' in yellow wig?" Helen rose to meet the waitress halfway, and hurried from the place. "Baby Doll" was destined to be cut out of her program from that moment, but the shock of hearing herself discussed so freely by those pert sixteen year olds was too much. How unconsciously cruel they had been; how arrogant in the pride of their youth.

It was as she had suspected. She represented Bill Clayton's solitary will, but in the circumstances she was quite as embarrassing to him as a whole harvest. She had him fast and there was no way to let him go with out confessing herself guilty of a legal misdemeanor. She was angry enough not to want to let him go, either. To think that, an insipid child like Marion Flute could have superseded her in Bill's affections was humiliation unbearable. She had thought there was something in Bill, that he had a brain, that he was capable perhaps of even great things. And he was just like any other silly boy.

This week she had returned his check with the curt information that all was definitely over between them and that it was useless for him to send it, as she had the slightest intention of taking further advantage of his kindness. She had added that she had drifted apart it was foolish to hold any further communication. She hoped he would forget all they had ever been to each other.

This note had been dashed off in a fit of temper at the world in general. Between fear of Margery's finding out and the personal inconvenience of being more or less tied to two men at the same time, Helen had no room for considering the plight she left Bill in. As far as she cared, he could go and consider himself her husband. She even took a faintly malicious satisfaction in knowing that he could not offer himself to Marion Flute. Served him right. She hadn't forgotten those pledges made in all sincerity. She loved him as she had from the first; but she did not confess to herself that it had always been a selfish love.

AMBASSADOR OF ITALY FETED BY ITALIANS HERE

Reports Great Progress of Homeland.

(Picture on back page.)

Senator Vittorio Rolando Ricci, recently appointed ambassador from Italy to the United States, was welcomed in Chicago by thousands of his countrymen at a huge manifestation at the Ashland Boulevard auditorium yesterday afternoon.

Little girls in white dresses, waving the scarlet, green, and white flag of Italy, and former soldiers in the uniforms of both countries added a touch of color to the occasion. "In three years Italy will have wiped out her national debt," Senator Ricci said, speaking of conditions in his homeland. "Italian women, forgetting the war waged by their husbands, have already gone to the aid of starving Austrian mothers and babies."

Tells Youths to Obey Law. Turning to the delegation of boys and girls, the ambassador told them to go to school and to obey the laws, as every wrong act of theirs "brought discredit to Italy." Senator Ricci arrived early yesterday morning from San Francisco. At his own request, however, no welcoming party met him at the station. Instead, at noon he received a delegation of Chicagoans of Italian descent at his suite at the Drake hotel. Among them were Dr. Camillo Volini, head of the committee; Judge Bernard P. Baras, Consul Dal'Agnol, Dr. Oscar Durante, Dr. Michael A. Scritella, Assistant State's Attorney John Shearson, and Dr. A. L. Latorio.

Plan Banquet Saturday Night. Traveling with the ambassador are his secretary, Commander A. Sapelli, and Dr. G. Bugge. During the week Senator Ricci will tour the surrounding cities addressing Italian groups. His itinerary will include Milwaukee, where he goes today; Rockford, Joliet, and Chicago Heights. His visit will be officially concluded Saturday night with a banquet at the Congress hotel.

45,000 INVITED INTO CHURCHES OF ROGERS PARK In order to reach 3,000 persons who have moved into Rogers Park this spring the seven Protestant churches of that community started a drive yesterday by sending invitations to the 45,000 residents.

Churches cooperating in the drive are Rogers Park Baptist, First Congregational, St. Paul's-by-the-Lake, Howard Community, Rogers Park Lutheran, Methodist Episcopal church of Rogers Park, and Rogers Park Presbyterian.

Widow Zander's breach of promise suit against Uncle Rm Gump will be tried by the lawyers of the Rogers Park Presbyterian church June 21 to help raise a \$50,000 fund for building improvements.

Hundreds See Rider Save Girl Comrade in Runaway In sight of hundreds of Sunday outdoorers, a runaway horse and carriage yesterday rescued Miss Mary Casey, 4559 Ellis avenue, from injury on the Washington park bridge path when her horse bolted and ran away while the couple were riding.

FLAPPERS SIGN OF WOMAN'S ERA, PASTOR ASSERTS

Man Ages Giving Way to Feminine Rule.

Rev. Almer Pennwell, pastor of Covenant church, Evanston, yesterday defended the flapper in his morning sermon. "Flapperism is not a disease but a diversion," he said. "Bobbled hair, short skirts, and knickerbockers are not signs of sin but a declaration of independence. The girls are arriving. They are a jolly lot. They will give us the finest generation of women the world has ever known."

World's Finest Gen. The emergence of woman from seclusion has been taking place for the last fifty years. It is the most important event in the history of the world," he said. "Woman will be the world's finest gem when her goal is reached."

We are passing from the man age, a rough age, and emerging into the age of culture, a woman's era. That is why the flapper exists today. She is bewildered. The new age will be one not ruled by women but one in which their influence will be felt more than it has ever been felt before.

Babes in the Woods. Rights of citizenship and equal rights before the law have been granted them. They are getting into public life. They are being granted education. They now have a moral freedom never dreamed of before. The result is that some are like babes in the woods, bewildered, some are like housewives, and some are like a storm; some are Cleopatras gone mad; some have seen the glory crown heights opened to the new womanhood and they are joyously and earnestly achieving a divinity that gives hope to the world.

There is no doubt that this liberated woman will make the new age of woman a wonderful period in the history of the entire history of the world. There may be delays, but we should not be pessimistic because some of the girls dress in startling styles. "With the coming of this new woman she will surprise many, probably, and many will call her mannish, but you may be sure that she will retain these three eternal feminine instincts: mating, mother, altruistic."

Advice to Girls. "Now for a few words of advice to the girls. I have three recommendations to make. First, be physically fit and strong. Second, develop a broad field of intellectual interest. Read good books, become identified with big movements, study, be serious. Third, develop your spiritual life. Do these things and all will be well. You will become the gem of the world."

HAS \$10,000 IN CASH, REFUSES QUART OF BOOZE, WIFE \$5 A WEEK New York, May 21.—(Special.)—A new candidate for the parsonage of a parishioner was uncovered in Domestic Relations court here yesterday.

When Samuel Moskowitz, 40, a Livingston street tailor, was taken before Magistrate Smith because he would not pay his wife, Anna, \$5 a week to support herself and two children, she suddenly cried out: "He's a walking gold mine, judge. Search him."

When Moskowitz was unbuttoned by the money belt, Mrs. Moskowitz's statement was confirmed. It contained \$10,000 in bills of various denominations. "And that's not all, judge," Mrs. Moskowitz continued. "He kept pleading he was poor to save paying me that \$5, and on top of that, judge, he kept borrowing money from me. Money which I had to get from my 16 and 12 year old boys, who support me."

"Joker" Alarm; Boys Weep in Night; Under Arrest Three boys were taken to the Juvenile home yesterday for pulling a fire alarm box at Union and O'Brien streets "just to see the engine run." They are Tony Sinkovick, 728 West 14th place; George Petrak, 712 West 14th place; and John Setuat, 1801 Newberry street.

WHEN A FELLER NEEDS A FRIEND

WOMAN'S RELIEF CORPS HONORS MRS. SCHROEDER

Mrs. Jessie B. Schroeder of 550 Roscoe street was elected commander of the Illinois department, Woman's Relief Corps, at the convention held last week at Alton, Ill. The organization, which is an auxiliary to the Grand Army of the Republic, has been active in assisting the ex-service men and in serving flowers and extending condolences to families of soldiers whose bodies have been returned to the States for burial.

QUART OF BOOZE, JUG OF WINE, AND FORD ZIGZAGGED

A gallon jug of wine, a quart of whiskey and a .32 caliber revolver were seized by police yesterday after a chase of two men in a Ford on East Sixty-third street. Lieut. John Egan, Detective Sergts. Tapscott, McCarthy, McFadden and Chauffeur William Teala noticed peculiar zigzag contortions of the Ford as they drove along East 63d street near Eberhart avenue. A command to halt was fruitless. The chase ended at South Park avenue. The two said they were Gus O'Connor, a plumber, 928 Hyde Park boulevard, and Benjamin Gottlieb, 5471 Ridgewood court, a salesman. They were taken to the detective bureau.

Singer and Husband Held as Bond Theft Abettors

New York, May 21.—(Special.)—On indictments charging grand larceny, John W. Vardeman and his wife, Bertha, who, as a light opera singer years ago was known as Fern Hollis, will be arraigned tomorrow in General Sessions court. After being brought here from Savannah, Ga., yesterday by New York detectives the couple, according to the police, made confessions as to their knowledge of the theft from the Chase National bank and subsequent attempts to dispose of \$500,000 in Liberty bonds.

FORECAST END OF DEADLOCK IN PARK ELECTION

Party Lines May Be Broken for Kelly.

Opposition that has arisen in some quarters to the selection of a man prominently identified with the electrical interests of the city as a member of the South Park board at the time the board is interested in the electrification of the Illinois Central railroad, may lead to a breaking of the deadlock among the Circuit judges over the selection of a South Park commissioner. At present the EDWARD J. KELLY, a Republican, judges of the Circuit court are a unit behind the candidacy of Bernard E. Sunny, president of the board of directors of the Illinois Bell Telephone company, and the election of the General Electric company. The ten Democratic judges have voted as solidly for Edward J. Kelly, former chief engineer of the sanitary district of Chicago.

Vote Has Been 10 to 10. Several meetings of the judges have been held in an effort to make a choice, but the vote has always been ten to ten. Consequently there has been no election and Charles L. Hutchinson, who has been anxious to surrender his seat as a member of the park board, has been obliged to remain in office against his will.

It is reported, however, that some of the Republican judges are opposed to making any further effort to make a party issue of the election of Mr. Sunny. Several of the judges were elected on the coalition ticket which swept the county last June. They are saying that the election of a Democratic, running on the Democratic ticket, has released them from party obligations, and they are reported to be willing to join with the ten Democrats to elect either Mr. Kelly or some one who will be agreeable to the Democrats. As the Democrats are a unit for Mr. Kelly, however, the chances for the selection of an outsider are considered remote.

Kelly an Engineer.

The Democrats are making a strong point of the qualifications of their candidate. They point out that as chief engineer of the sanitary district Mr. Kelly was in charge of the construction of the sewerage system, and that his engineering experience peculiarly qualifies him for a seat on the south park board at the time that body is to pass upon some of the most important improvements that have been projected in the history of Chicago.

The Republicans originally urged in support of Mr. Sunny that his wide knowledge of electrical matters would make him valuable in connection with the Illinois Central electrification problems. This argument is now being turned against him by the Democrats, who also point out that no one can have a more thorough knowledge of electrical affairs than the former chief engineer of the sanitary district which furnishes electric light and power to the city and to many private concerns.

NEW COLLEGE FOR AMATEUR PACKERS URGED

Something new in educational institutions will be founded here—a college at which prospective meat packers may receive special training in the Institute of American Meat Packers, materialize. In a report to the institute's executive committee, Wilson has outlined plans for a training school that would "provide broad but specialized collegiate education for young men intending to enter the packing industry."

WESTINGHOUSE REPORT AUGURS BIG RADIO TRADE

BY O. A. MATHER.

Continued popularity of wireless telephony and keen competition in supplying a public demand for apparatus is foreseen by President Guy E. Tripp of the Westinghouse Electric and Manufacturing company in the annual report to the stockholders.

"In addition to favorable indications for an increasing demand for the regular lines of the company," Mr. Tripp states, "a large demand for radio telephone receiving apparatus has recently developed, with a prospect of its continuance for an indefinite period. It should be pointed out, however, that the resulting year promises to be a period of keen competition. The company has already, by the establishment of broadcasting stations, created a substantially new manufacturing field, and the demand for radio telephone receiving apparatus, which began to be of importance in January, has already reached large proportions."

Gross Earnings Fall Off

The financial report for the fiscal year ended March 31 reflects the general difficulties of manufacturing last year. Gross earnings fell off 35 per cent. Net income was \$5,837,385, equivalent after preferred dividends to \$3.90 a share on the common stock of \$30 par value, or 12.6 per cent of the \$30 par value.

In the previous fiscal year net income was \$12,617,336, equivalent to \$8.40 a share on the common stock.

During the year the company paid off \$1,775,000 in outstanding notes and marked down the value of inventory about 30 per cent. Current assets and liabilities were reduced \$38,587,000 and \$33,546,000 respectively. Reserves were reduced \$5,818,000, while surplus showed a slight increase. Total assets and liabilities declined \$39,200,000.

FLEET OF MOTOR SHIPS ON CANAL AND OCEAN SOON

Washington, D. C., May 21.—(Special.)—A movement has been started in New York, fostered by the Central Steamship and Commerce company, to put a fleet of motor ships on the canal for coastwise and foreign service. It is proposed to build several ships 267 feet long, 42 feet beam, and 18 feet in depth, at a cost of \$500,000. These boats are to run on the canal and enter the coastwise and foreign service in winter.

The promoters claim such boats can operate on half loads and still cut the railroad rate in two.

Fuel Economy on Roads Is Convention Objective

Fuel economy on roads will be the objective sought by about 600 delegates at the convention of the International Railway Fuel association, which will open in the Auditorium hotel this morning. W. L. Robinson, of the Baltimore and Ohio railroad, president of the association, and L. W. Baldwin, vice president of the Illinois Central railroad, will speak. J. G. Crawford, fuel engineer of the Chicago, Burlington and Quincy, is secretary-treasurer.

Uncle Sam to Redeem All Victory 3-4s on June 15

Washington, D. C., May 21.—Interest on 3 1/2 per cent Victory notes ceases on June 15, Secretary Mellon said tonight in a statement calling attention to the treasury's offer to redeem at par and accrued interest to that date all notes of the issue. To date, he said, about \$100,000,000 of these notes have been redeemed, leaving \$270,000,000 of the 3 1/2 per cent Victory notes still outstanding.

FINANCIAL NOTES.

Interest on the 3 1/2 per cent Victory bonds will cease on June 15, the date of redemption fixed by the terms of the issue.
